Verizon Wireless is America's best, most reliable wireless network, serving over 45.5 million customers nationwide. Verizon Wireless deploys wireless service utilizing the CDMA technology, which provides enhanced service levels while accommodating increasing capacity. We were first to launch a high-speed data network, NationalAccess, with downloadable applications over the air onto phones. BroadbandAccess, a higher speed mobile wireless internet data solution, with typical speeds of 400-700 kbps, capable of reaching speeds up to 2 Mbps is also available in the following major metropolitan areas: BroadbandAccess is currently available in 30 major metropolitan markets nationwide, including: Atlanta, GA; Austin, TX; Baltimore, MD; Boston, MA; Chicago, IL; Cincinnati, OH; Columbus, OH; Dallas/Fort Worth, TX; Dayton, OH; Hartford, CT; Houston, TX; Jacksonville, FL; Kansas City, MO; Las Vegas, NV; Los Angeles, CA; Madison, WI; Miami/Fort Lauderdale, FL; Milwaukee, WI; New Haven, CT; New Orleans, LA; New York, NY/Newark, NJ; Orlando, FL; Philadelphia, PA; Phoenix, AZ; Pittsburgh, PA; Providence, RI; San Diego, CA; St. Petersburg/West Palm Beach, FL; Tampa, FL; and Washington, DC. BroadbandAccess is also available in the major airports within these markets.

Verizon Wireless has provided service to the Federal sector for over 20 years. We have a dedicated Government Sales organization that is focused on meeting the needs of the Government customer. Our established relationships and service reputation have assisted in expediting and facilitating wireless solutions for the government customer.

SPECIAL ITEM NO. 132-53 WIRELESS SERVICES (FPDS CODE D304) Excluding local and long distance voice, data, video, and dedicated transmission services which are NOT mobile.)

Cellular/PCS Voice Services

INFORMATION FOR ORDERING ACTIVITIES APPLICABLE TO ALL SPECIAL ITEM NUMBERS

SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage!™ and the Federal Supply Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1. Geographic Scope of Contract:
   The geographic scope of this contract is the 48 contiguous states, the District of Columbia and Hawaii.

Contractors are required to accept credit cards for payments equal to or less than the micro-purchase threshold for oral or written delivery orders. Credit cards will be acceptable for payment above the micro-purchase threshold. In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number(s) can be used by ordering activities to obtain technical and/or ordering assistance:

1.0 Verizon Wireless Overview

Verizon Wireless is America’s best, most reliable wireless network with more that 43.8 million wireless voice and data subscribers.

Verizon Wireless subscribers have access to one of the largest, most ubiquitous networks in the country, with more that 22,000 cell sites in operation, currently covering 97 of the top 100 markets. Verizon Wireless provides superior Code Division Multiple Access (CDMA) digital technology along with high reliability and consistent call quality. Verizon Wireless’ cellular coverage is currently one of the largest of any wireless provider.* Verizon Wireless’ NationalAccess is available in virtually the entire Verizon Wireless footprint.

Verizon Wireless is considered a leader in the wireless communications industry based upon our ability to offer innovative choices for wireless products and services including voice, wireless data and text messaging. Verizon Wireless also offers benefits such as Internet access, SMS (Short Message Services) and remote wireless email.

National Wireless Service

Verizon Wireless has the capability to provide the government with the latest in wireless technology. Verizon Wireless offers greater value for your organization’s wireless investment through our national business structure that enables us to offer:

- Extensive nationwide network
- Simplified choices for national wireless services, including voice, data and text messaging
- Superior Customer Service that encourages employees to take ownership of subscriber issues and delivers quick resolution.
- Highly reliable and consistent call quality across our CDMA network.
- More consistent delivery of service features [like voice mail, caller ID, text messaging] as subscribers travel around the country.
- National wireless data services that offer benefits such as Picture Messaging, e-mail, and internet access through BlackBerry and other PDA devices, remote database access and e-commerce services.

The key to Verizon Wireless’ success is to continue delivering outstanding value to subscribers. With our strong customer service focus in every process, Verizon Wireless is also committed to maintaining and improving the quality of our network.

Verizon Wireless’ Network

Verizon Wireless provides 800 and 1900 MHz Code Division Multiple Access (CDMA) digital voice and data services, 1xRTT Express Network, and 800 MHz Advanced Mobile Phone System (AMPS) analog service. The combination of a digital and analog network gives Verizon Wireless the ability to provide subscribers with coverage in parts of the country that some competing national carriers have yet to build out. Verizon Wireless continues to invest significantly to expand and enhance its premier network. Over the past two years, Verizon Wireless has invested more than $8 billion nationwide.

CDMA digital technology provides reliable and consistent call quality and connectivity. Verizon Wireless uses dual encoding systems to convert analog voice to digital signals. The digital signals are then packetized and sent across our spread-spectrum network. Spread spectrum is a technique that spreads the individual digital packets across numerous frequencies. The advantages of spread spectrum CDMA are efficiency and security. Because the digital packets can share the same bandwidth and time, individual cells can handle many more calls than a traditional analog network. The random assignment of packets to different frequencies prevents eavesdropping and creates a highly secure network. CDMA service also virtually eliminates static and cross-talk. Dropped calls are also reduced.
by our “soft hand-off” capability that ensures a traveling caller isn’t dropped from one cell before a connection is completed to a new cell.

Verizon Wireless was the first U.S. wireless carrier to roll out a national high-speed wireless data network. Today our sizeable 3G footprint supports voice and data in the same spectrum. Based on 1xRTT technology, our 3G NationalAccess allows customers fast access to the Internet in over 1000 cities and towns nationwide. When outside the National Enhanced Services Area, backward compatibility allows customers to access data services on our Quick 2 Net™ circuit-switched connection. Verizon Wireless will continue to leverage its scale and synergies through network infrastructure expansion to accelerate the deployment of CDMA service and 3G services, including EV-DO (BroadbandAccess). In addition to its ongoing capital investment program to build network capacity and coverage, Verizon Wireless plans to invest $1 billion to expand the number of markets with EV-DO capability through 2005.

Network Investments

Verizon Wireless continues to invest significantly to expand and enhance its premier network. Over the past 2 years, Verizon Wireless has invested more than $8 billion nationwide, resulting in an increase in cell site coverage, deployment of two-way short messaging service (SMS) throughout the network, and the conversion to third generation (3G) 1xRTT technology (NationalAccess), capable of high-speed data transmission, in virtually the entire Verizon Wireless footprint. Verizon Wireless will continue to leverage its scale and synergies through network infrastructure expansion to accelerate the deployment of CDMA service and NationalAccess services. Verizon Wireless plans to invest more than $4 billion in its network this year.

2.0 Verizon Wireless Messaging Services’ Overview

Verizon Wireless Messaging Services’ is a leader in business-to-business wireless messaging partnerships, providing an excellent customer support infrastructure, combined with world-class technology deployment and operations. This combination ensures superior customer satisfaction and the most efficient utilization of paging services.

Verizon Wireless Messaging Services aims to keep costs low by automating customer transactions, sharing best practices, and fine-tuning its networks for capacity and cost efficiency. Furthermore, Verizon Wireless Messaging Services has a strong track record of customer satisfaction, integrity, and growth.

 Millions of cellular and paging customers in the U.S. associate the Verizon Wireless brand with fast, friendly and flexible service. Verizon Wireless Messaging Services has earned a reputation for excellent customer service and outstanding customer focus.

Verizon Wireless Messaging Services’ Network

Verizon Wireless Messaging Services’ networks utilize the latest proven technologies commercially available. These networks have elements that are designed to Verizon Wireless Messaging Services’ specifications improving system performance. The following are used on many of Verizon Wireless Messaging Services’ present operating systems:

- Satellite delivery of paging information for greater coverage
- Frame Relay, which provides interconnection of paging terminals and satellite links
- Redundancy in many elements of the network to provide continuous service in the unlikely event of an outage
- Data network topologies utilizing TCP/IP and SNMP, which help Verizon Wireless Messaging Services to manage its network
- Automatic diagnostics and alarming to minimize downtime
• Fiber Optic Telco connections, where available, for improved reliability
• Interconnect route diversity to maintain service in the event of a landline-based problem

Although Verizon Wireless Messaging Services has not experienced significant outages with its redundant system architecture, Verizon Wireless Messaging Services employs redundancy in all critical terminal power plants. This redundancy includes redundant power plant, battery back-up and, in most cases, a permanent generator back-up. Verizon Wireless Messaging Services’ 900 MHz satellite controlled paging systems have redundant encoding equipment and redundant satellite transmitters, all located at its up-link. Verizon Wireless Messaging Services also employs redundant telephone facilities at the up-link. All of Verizon Wireless Messaging Services’ terminal networking is accomplished via high-tech networks, backed up in the event of failure by dial back-up phone lines or satellite back-hauls. Verizon Wireless Messaging Services’ terrestrial link transmitter systems employ fully redundant link transmitters with power back-up facilities. On systems where redundancy is not available, ample spares are inventoried to minimize the impact of failure.

Verizon Wireless Messaging Services’ network is monitored for system performance and system throughput. Any time the local system is observed to be malfunctioning or delayed in processing paging traffic, an internal monitoring team contacts the affected regional technical team, or on-call personnel if after hours, and immediately requests investigation to confirm system performance and correct the fault in the network. On-call personnel carry pagers and mobile telephones. If a network issue affecting more than the local area is identified by the core monitoring group in Dallas, TX, actions are taken to contact the Network Engineering technical staff, or on call personnel. The local technical staff, Core Monitoring and Network Engineering groups have staff on-call 24 x 7 x 365. When an outage is reported, an e-mail alert is generated indicating the area, the problem and what services are affected. This alert goes to all technical staff, Engineering headquarters staff, Core Systems and Network Engineering staff, in addition to the Major Account Executives and company management. When the outage has been corrected, an "all-clear" e-mail update is generated and submitted.

Verizon Wireless Messaging Services alphanumeric or advanced messaging customer can send the message using one of the following methods:

• Via the Internet - [www.myairmail.com](http://www.myairmail.com)
• E-mail – any e-mail program can dispatch alphanumeric messages to Verizon Wireless Messaging Services alpha customers using 10-digit pager#@myairmail.com
• Paging Software – stand alone and network version programs are available at fees set forth on pricing attachment

Regardless of how the messages originate, the messages come into a Verizon Wireless Messaging Services switch. Once delivered to the Verizon Wireless Messaging Services switch, Verizon Wireless Messaging Services routes the message to the appropriate RF network, which then delivers the message over-the-air to the pager.

For Advanced Messaging customers (two-way), the sender can acknowledge the message upon receipt. If the pager receives a garbled message, the pager will request that the network resend the message (which the network will do). If the pager cannot receive the message, the network will store the message up to 96 hours. The network will continue to try to find the pager to deliver the message. When the pager is turned off, changes coverage areas, or is out of coverage the system will deliver the stored messages when it locates the pager or the pager returns to coverage within 96 hours. A total of 25-stored messages can be delivered based on a first-in-first-out methodology.
Coverage Areas/Descriptions

VWMS provides paging on four nationwide frequencies and numerous 900 MHz local frequencies, with coverage in the top 150 major metro areas and beyond in all 50 states.

Verizon Wireless Messaging Services offers the following coverage plans:

- Local - Includes one or more Metropolitan Statistical Areas (MSA) The basic level of coverage is local city coverage. This type of coverage usually includes a major city and some surrounding areas. Verizon Wireless Messaging Services offers the most extensive coverage in the industry for local coverage. Local coverage is available for 1-way and most Advanced Messaging (2-way) market networks.
- Wide Area / Statewide* - Includes major Metropolitan Statistical Areas within a State.
- One Region - Please refer to the Verizon Wireless Messaging Services map on our website – [www.verizonmessaging.com](http://www.verizonmessaging.com)
- Nationwide – Includes coverage across the 50 United States. This does not refer to “blanket coverage” Please refer to the Verizon Wireless Messaging Services map on our website – [www.verizonmessaging.com](http://www.verizonmessaging.com)

* Not available in all markets

Actual coverage may vary due to terrain, weather, building density, interference, and equipment failures. No wireless coverage is 100% accurate all the time.

</table>

Roaming Airtime Rate†† $0.69 per minute

**Note:** The America’s Choice home airtime rate and coverage area includes the Verizon Wireless network and select preferred roaming carriers. See America’s Choice Calling Plan Map for details. * Monthly access fee includes unlimited one to one Push to Talk calling. Group calls are $0.15 per minute per individual user called. † Domestic long distance is included when placing calls in the America’s Choice home airtime rate and coverage area. Long distance charges will apply when making or receiving calls outside the United States. Toll and long distance charges may apply when making or receiving calls in Puerto Rico. †† Roaming and toll charges may apply when making and receiving calls from off the America’s Choice home airtime rate and coverage area and in CDMA countries, see International Roaming terms and conditions.
The America’s Choice Business SharePlans, including Push to Talk, qualify for monthly access fee discounts and promotions, when available. The 19% discount to the Standard Monthly Access Fee has been applied, as indicated herein and is not eligible for any further discount.

In order for Customer’s Government Subscribers to qualify for the America’s Choice Business SharePlan, Customer must have a minimum of 5 America’s Choice Business SharePlan Government Subscriber lines active at all times. Should Customer’s Government Subscriber lines to the America’s Choice Business SharePlan fall below the 5 Government Subscriber line minimum, Customer’s Government Subscribers will be migrated onto retail consumer pricing or government pricing, if available.

Government Subscribers to the America’s Choice Business SharePlans can share minutes among multiple Government Subscribers within their market that are activated on the same account. Government Subscribers who don’t use all of their shared home airtime minutes in the monthly billing period will pass those minutes to other Government Subscribers in their same market that are activated on the same account that have exceeded their shared home airtime minutes during the same monthly billing period, as applicable. Lines that share minutes must be activated on an America’s Choice Business SharePlan only, however such America’s Choice Business SharePlan Subscribers in the same market that are activated on the same account may share minutes from the various available America’s Choice Business SharePlan monthly access fees. For example, Government Subscribers to the $36.44 America’s Choice Business SharePlan may share minutes with other Government Subscribers to America’s Choice Business SharePlans within their market that are activated on the same account to the $52.64 America’s Choice Business SharePlan; likewise, they can share minutes with Government Subscribers to the $85.04 or $125.54 America’s Choice Business SharePlan in the same market that are on the same account.

**Note:** The America's Choice home airtime rate and coverage area includes the Verizon Wireless network and select preferred roaming carriers. See America's Choice Calling Plan Map for details. * Monthly access fee includes unlimited one to one Push to Talk calling. Group calls are $0.15 per minute per individual user called. †Domestic long distance is included when placing calls in the America’s Choice home airtime rate and coverage area. Long distance charges will apply when making or receiving calls outside the United States. Toll and long distance charges may apply when making or receiving calls in Puerto Rico. ††IN Calling minutes included with SharePlans are per line and cannot be shared among multiple Subscribers. †††Nights and Weekends terms and conditions apply. †††Roaming and toll charges may apply when making and receiving calls from off the America’s Choice home airtime rate and coverage area and in CDMA countries, see International Roaming terms and conditions. Domestic long distance is included when placing calls in the America’s Choice home airtime rate and coverage area. Toll and long distance charges may apply when making or receiving calls in Puerto Rico. SharePlan: Subscribers to the America’s Choice Business SharePlan can share minutes among other Subscribers to America’s Choice Business SharePlan on the same account. Sharing may only be available among Subscribers activating Wireless Service in the same Verizon Wireless market or within groups of Verizon Wireless markets, as determined by VZW. Note that geographic regions may contain multiple Verizon Wireless markets. Shared home airtime minutes not used by an applicable Subscriber in a given monthly billing period will pass to other applicable Subscribers within the shared account group that have exceeded their shared home airtime minutes during that same monthly billing period. A minimum of five (5) America’s Choice Business SharePlan Government Subscribers lines must be active at all times to qualify for Sharing; otherwise the applicable Subscribers will be migrated onto applicable retail consumer pricing or government pricing. Only lines activated on an America’s Choice Business SharePlan are eligible for Sharing; however, the individual lines need not all be activated at the same monthly access fee. International dialing, Directory Assistance, and features will be categorized together, billed as other charges, and not detailed on the monthly invoice. At the termination or expiration of the Agreement, Subscriber lines on America’s Choice Business SharePlan will be migrated onto applicable retail consumer pricing or government pricing.

### QSec®-800 Available Area
- Service is available in CDMA 800 MHz Digital Service Areas only.
- Security Features are only available in Verizon Wireless' CDMA 800 MHz Digital Service Area. Activations only in the Verizon Wireless Washington, DC/Baltimore MD Market.

### QSec®-2700 Available Area
- Service is available in CDMA 800 MHz and 1900 MHz Digital Service Areas only. Security Features are only available in Verizon Wireless' CDMA 800 MHz and 1900 MHz Digital Service Area. Activations only in the Verizon Wireless Washington, DC/Baltimore MD Market.

#### Note:
Use of the service is subject to the terms and conditions of the Service Agreement. Verizon Wireless may make changes to the Service Agreement and/or the Calling Plan, including, without limitation, changes to content, rates, business practices and policies at any time in accordance with the terms and conditions in the agreement. Digital service required. 800 MHz digital service required to operate in secure mode. Secure mode does not work in analog markets. Geographic and other restrictions apply. Services activated under this Agreement are not eligible for access or revenue discounts or promotions. Monthly Home Allowance Minutes may not be carried over to the next billing cycle.

The Q-Sec800 Government Secure Service (Type 1) Calling Plans are available only on the Verizon Wireless approved secure handset model. Handsets must be programmed with two (2) Mobile Telephone Numbers (MTNs); each MTN must be programmed with Verizon Wireless' current Preferred Roaming List (PRL). Service and eligible equipment availability is restricted to select Government Agencies and personnel approved by the National Security Administration's Secure Communications procedures.

†Mobile to mobile applies to mobile to mobile airtime calls originated and terminated within the Verizon Wireless mobile to mobile calling area which is Verizon Wireless' CDMA 800 digital MHz Service Area excluding Cortez and Pueblo CO, Rock Springs, WY, and Puerto Rico. Mobile to mobile rates do not apply to calls made to or received from landline phones, pagers, or wireless phones on another carrier’s network. Calls are billed as mobile to mobile only when Caller ID is available. Phone may not accurately display Caller ID and roaming indication; charges based on information in billing system. Not available with fixed wireless devices with usage substantially from a single cell site. Taxes and surcharges apply.

#### Government Secure Service Price Plan Terms and Conditions:
- Activation of Government Secure Service for QSec®-800 and QSec®-2700 devices is available only on the Government Secure Service Pricing Plans. Networks not available in all areas. Rates based on use of phone as programmed with Verizon Wireless’ current Preferred Roaming List (PRL). The International Dialing feature and procedures apply for calls to Puerto Rico and the U.S. Virgin Islands. Rates do not apply to credit card or operator assistance calls. Airtime rates and other charges may apply to features. Monthly allowance minutes do not apply while roaming outside of the home airtime area. Automatic roaming may not be available in all areas and rates may vary for calls placed while roaming. Verizon Wireless long distance required. Long distance and roaming rates for international calls, where available, may vary. Calls placed while traveling outside the Verizon Wireless network may take longer to be billed. Airtime rounded up to next full minute, so actual allowance may vary. Airtime allowance minutes are not transferable. Unused airtime minutes are lost. Airtime is charged to toll-free numbers. Calls to "911" and certain other emergency services are toll and airtime free. Charges for calls that connect begin when you press the “SEND” or “CONNECT” button, or upon connection to system. On incoming calls, charges may begin prior to the phone ringing and before you press “SEND” to receive the call. Charges end when the call or data session disconnect from system, which may be a few seconds after you press “END” or “DISCONNECT” button. When you place calls that ring for 60 seconds or more, you may be billed at normal airtime rates even when such calls are busy or unanswered. Calls to certain fax/data modems incur charges, though it may sound as if call was unanswered.
### 4.0. Wireless Data Service Pricing Plans

**Note:** For current NationalAccess service area, visit the web at [www.verizonwireless.com/expressnetwork](http://www.verizonwireless.com/expressnetwork). †Available to Government Subscribers only. Megabyte allowance and charges for kilobytes over the monthly allowance apply to NationalAccess data usage; all other usage charged in accordance with calling plan. NationalAccess data usage is rounded to next full kilobyte at end of each billing cycle. Only total of kilobytes transmitted each billing cycle will appear on bill. NationalAccess data sessions will need to be reinitiated after 24 hours (Actual timeout will be set to 23:55 hours). You are responsible for all charges, including all data sent and received and “overhead” whether or not you or your recipients actually receive the data. Overhead is all data that is in addition to user-transmitted data, such as control, operational and routing instructions, error-checking characters as well as retransmissions of user-data messages that are received in error. Any unused
portion of the megabyte allowance is lost. Equipment will not indicate kilobyte usage. For current NationalAccess service area, please visit the web at www.verizonwireless.com/expressnetwork/availability. Verizon Wireless Calling Plan Terms and Conditions apply.

Definitions: Bit - A bit is short for Binary Digit, the smallest unit of information on a machine. A single bit can hold only one of two values: 0 or 1. Byte - A byte is a unit of measure 8 bits. Kilobyte - A kilobyte is a unit of measure equal to 1,024 bytes. Megabyte - A megabyte is a unit of measure equal to 1,048,576 bytes or 1024 kilobytes

## PUBLIC SAFETY UNLIMITED NATIONALACCESS CALLING PLAN: FEDERAL SUPPLY SCHEDULE PRICE

The Public Safety Unlimited NationalAccess Calling Plan is not eligible for any monthly access fee discounts.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Note: The home airtime rate area for the Unlimited NationalAccess Calling Plan includes the Verizon Wireless network and select preferred roaming carriers, please see the America's Choice Calling Plan Map for details. Verizon Wireless reserves the right to change Subscribers device software over the air without notice.

†Roaming, toll, and long distance charges may apply when making and receiving calls from off the America's Choice home airtime rate area and Canada. You will see 777-000-0001 in dialed digits column of bill for NationalAccess data sessions only.

For current NationalAccess service area, please visit the web at www.verizonwireless.com/b2c/mobileoptions/nationalaccess. NationalAccess Megabyte Calling Plans and NationalAccess Calling Plans may not be combined with the Unlimited NationalAccess and BroadbandAccess Optional Feature. NationalAccess data sessions automatically terminate after two (2) hours of inactivity, unless Subscriber has a Mobile IP (MIP) capable device, then NationalAccess data sessions will need to be reinitiated after 24 hours (Actual timeout will be set to 23:55 hours). Please see Calling Plan Features for included and additional features; Verizon Wireless Calling Plan Terms and Conditions apply.

The Public Safety NationalAccess plan may only be used with wireless devices for public safety applications. Examples of such public safety applications are NLETS, TBIS, CAD, NCIC, short messaging and RMS as well as other transmission services such as in-house GPS, bar code reading, sending of still digital pictures, and wireless dispatch. The Public Safety NationalAccess plan may not be used for Internet access, including web searches and heavy downloads. The Public Safety NationalAccess plan cannot be used as the backhaul for server devices or host computer applications. Examples of such prohibited uses include, without limitation, web camera posts or broadcasts, streaming video, continuous jpeg file transfers, automatic data feeds, telemetry applications, automated functions, any other machine-to-machine applications. Data sessions on the Unlimited NationalAccess calling plan cannot be used as substitute for private lines or frame relay connections. MIP capable device, restricted Static IP address(es) and direct connection to the 1xRTT network are required. We reserve right to deny or terminate service, without notice, to anyone who uses the Public Safety NationalAccess plan in any manner prohibited or whose usage adversely impacts our network or service levels. You are responsible for maintaining virus protection when accessing the service. We also reserve right to terminate service upon expiration of the subscriber line Agreement. Your monthly bill will only reflect total kilobytes transmitted within the NationalAccess rate and coverage area.

### NationalAccess Telemetry Plan: Federal Supply Schedule Price

The National Access MB Telemetry plans has been discounted and is not eligible for any further Monthly Access Fee Discounts.
## Monthly Access Fee | NationalAccess MB Allowance | NationalAccess Overage Rate per kilobyte | On-Net Rate Per Minute\(^1\) (Peak/Off-Peak) | Off-Net Rate Per Minute\(^2\) [Peak/Off Peak Off-Net LD Included] | On-Net Long Distance Rate Per Minute (Peak/Off-Peak)
---|---|---|---|---|---
$7.50 | 2 MBs | $0.005 | $0.45 Peak/$0.20 Off-Peak | $0.69 domestic roaming ($0.99 international roaming) | $0.20

### Note:
\(^1\) On-Net rates apply when off Verizon Wireless’ NationalAccess, but still on Verizon Wireless’ digital and/or analog network, subject to device capabilities. Megabyte allowance and overage rate per kilobyte apply on Verizon Wireless’ NationalAccess only, subject to device capabilities.

\(^2\) For current NationalAccess service area, visit the web at www.verizonwireless.com/b2c/mobileoptions/nationalaccess/index.jsp.

\(^3\) Roaming and toll charges may apply when making and receiving calls off the home airtime rate area and in Canada; long distance charges will apply when making or receiving calls outside the United States. Customer must maintain a minimum of five (5) active properly enrolled and coded, active and billable Government Subscriber Units in order to qualify for Telemetry Pricing and/or Monthly Access Fee Discounts. Megabyte allowance and charges for kilobytes over the monthly allowance apply to NationalAccess data usage; all other usage charged in accordance with the calling plan selected. NationalAccess data usage is rounded to the next full kilobyte at the end of each bill cycle. Only total of kilobytes transmitted each billing cycle will appear on the bill. NationalAccess data sessions will need to be reinitiated after 24 hours (Actual timeout will be set to 23:55 hours); Customer is responsible for all charges, including all data sent and received and “overhead” whether or not your company or its recipients actually receive data. Overhead is all data that is in addition to user-transmitted data, such as control, operational and routing instructions, error checking characters as well as retransmissions of user-data messages that are received in error. Any unused portion of the megabyte allowance is lost.

Definitions:
Bit – A bit is short for Binary Digit, the smallest unit of information on a machine. A single bit can hold only one of two values: 0 or 1.

Byte – A byte is a unit of measure equal 8 bits.

Kilobyte – A kilobyte is a unit of measure equal to 1,024 bytes.

Megabytes – A megabyte is a unit of measure equal to 1,048,576 bytes or 1,024 kilobytes.

The Minutes of Use Telemetry plans are not eligible for Telemetry Monthly Access Fee Discounts.

1 Only available on plans with $39.99 or higher Access Fee, IN Calling terms and conditions apply. Calling plans with IN Calling minutes included, do not qualify for additional IN Calling minutes in this table. Subscribers to the Local Digital Choice calling plan for the South Area are eligible to purchase 1000 IN Calling minutes at $4.99 per month per line. ²Nights and Weekends terms and conditions apply. Calling plans with Nights and Weekend minutes included, do not qualify for additional Nights and Weekend minutes in this table. ³TXT Messaging terms and conditions apply. ⁴Get Pix terms and conditions apply. ⁵Mobile Web terms and conditions apply. ⁶Global Phone terms and conditions apply and requires the Global Phone handset. ⁷Not available on National SingleRate or NationalAccess calling plans; Offer may vary.
AIRFONE SERVICE

Airfone(r) Service for Verizon Wireless

Airfone(r) Service for Verizon Wireless lets subscribers forward their Verizon Wireless calls directly to the Airfone(r) handset and place calls from the Airfone handset - all at discounted rates. In addition, all Airfone charges are billed to their Verizon Wireless account.

Staying in contact while inflight is easier than ever, because Verizon Wireless subscribers can use their existing service to keep in touch with business contacts, family and friends.

How much does it cost?

**Voice Services**  
$0.69 per minute (No connection fee), or  
$10.00 per month/$0.10 per minute. (No connection fee)

How do I enroll?

Verizon Wireless subscribers must enroll in Airfone Service for Verizon Wireless. To enroll, subscribers can call Verizon Wireless customer service by dialing *611 on their cellular phone or contact the customer service number located on their wireless bill. They may also enroll by dialing "0" on the Airfone handset onboard the aircraft.

How does it work?

Once customers are enrolled and on the aircraft, they simply choose Verizon Wireless on the Airfone handset for Airfone Service for Verizon Wireless and follow the prompts. Airfone Service is presently available on select United, Continental, US Airways and Delta aircraft.

---

**Verizon Wireless Terms and Conditions**

**Calling Plans and Associated Charges:**

Some calling plans or monthly access fee price points may not be available in all markets. Subscriber’s first partial and full month’s access charges and any service activation fees are payable in advance and will not be refunded after activation of the Wireless Service. Charges, for calls that connect, begin when the “SEND” or “CONNECT” button is pressed, or upon connection to the network. On incoming calls, charges may begin prior to the phone ringing or before “SEND” is pressed to receive the call. Charges end when a call or disconnects from the network, which may be a few seconds after “END” or “DISCONNECT” button is pressed. Calls to certain fax/data modems incur charges, though it may sound as if call was unanswered. Calls to "911" and certain other emergency services are toll and airtime free however, airtime may be charged when dialing toll-free numbers. All features may not be available in all Verizon Wireless markets.

**Home Airtime and Roaming:** Airtime is rounded up to next full minute, allowance minutes are not transferable, and unused airtime minutes each month are lost. Automatic roaming may not be available in all areas and rates may vary. Roaming charges may be delayed to a later bill.

**International Long Distance:** International Long Distance is available but may be subject to a 90-day payment history with Verizon Wireless. International long distance rates will vary and do not apply for calls to Canada, Puerto Rico, the U.S. Virgin Islands and some U.S. Protectorates, or
to credit card or operator assistance calls.

**Customer's Cell Phone Number and Caller ID.** Verizon Wireless will assign one Mobile Telephone Number (“MTN”) to each Subscriber line. Other than as required to port a MTN, Customer does not have any property right in the MTN and Verizon Wireless may change, reassign, or eliminate an MTN upon reasonable notice to Customer under certain circumstances, including fraud prevention, area code changes and regulatory or statutory law enforcement requirements.

### Verizon Wireless Calling Plan Included Features

<table>
<thead>
<tr>
<th>Feature</th>
<th>Included Features</th>
</tr>
</thead>
<tbody>
<tr>
<td>Call Waiting</td>
<td>Three Way Calling</td>
</tr>
<tr>
<td>Call Forwarding</td>
<td>No Answer/ Busy Transfer</td>
</tr>
<tr>
<td>Caller ID</td>
<td>Basic Voice Mail</td>
</tr>
<tr>
<td>411 Connect</td>
<td>Basic TXT Messaging</td>
</tr>
</tbody>
</table>

1. Airtime charges apply to all calls simultaneously.
2. When making a call, Subscriber’s MTN may be displayed to the receiving party with Caller ID capable Equipment. Caller ID service may not be available outside home airtime rate and coverage areas, and may not be compatible with certain enhanced features. Caller ID can be blocked for most calls by dialing *67 before each call, or by ordering per-line call blocking where available. Calls to some numbers such as toll-free numbers cannot be blocked.
3. Airtime charges apply to message retrieval.
4. Directory assistance with automatic call completion is $1.25 per call plus airtime charges.
5. $0.02 per inbound and $0.10 per outbound message charge applies. TXT Messaging terms and conditions below apply.
6. Feature not included on NationalAccess and BroadbandAccess Unlimited or Megabyte (MB) calling plans at no charge, but are available at the prevailing Verizon Wireless rates.

### Verizon Wireless Calling Plan Optional Services

Additional fees may be required as per the individual calling plans

**Push to Talk:** Push to Talk capable Equipment required. Push to Talk calls may only be made with other Verizon Wireless Push to Talk Subscribers. Push to Talk is only available within the National Enhanced Services rate and coverage area. There may be a delay from when initiating a Push to Talk call. Push to Talk calls end after 20 seconds of inactivity. Unanswered ‘barge’ calls to available individuals incur delays if the individual does not respond. All calls to groups are ‘barge’ calls. While on a Push to Talk call, or when updated presence information is being sent to the Equipment, voice calls received will go directly to voicemail. While on a voice call Push to Talk calls cannot be received; however, presence information will indicate that Subscriber is ‘available’. Other Verizon Wireless Push to Talk Subscribers cannot be prevented from entering your MTN into their Push to Talk contact lists. MTNs cannot be blocked from Caller ID when making a Push to Talk call. Only one person can speak at a time during Push to Talk calls.

**IN Calling:** IN Calling minutes apply when making calls directly to or receiving calls directly from another Verizon Wireless Subscriber while in the America’s Choice Home Rate and Coverage area. With Local Digital Choice Calling Plans IN calls must originate and terminate while both Verizon Wireless Subscribers are within the same local IN Calling area. Phone may not accurately display Caller ID and roaming indication. Not available with fixed wireless devices with usage substantially from a single cell site. IN Calling is not available to Subscribers whose current wireless exchanges restrict the delivery of Caller ID. IN Calling minutes will be applied before home airtime minutes.*

**Night and Weekends:** Applies to calls made in a calling plan's home airtime area only during the following hours: 9:01 pm Friday through 5:59am Monday and 9:01pm-5:59am Monday through Friday. *

**NOTE:** If both Night and Weekend and IN Calling minute allowances apply to a given call, the minutes will decrement from the IN Calling allowance before the Night and Weekend allowance. However, if either allowance is unlimited, that allowance will always apply first.

**TXT Messaging:** **TXT Messaging includes Short Message Service (SMS up to 160 characters) and Enhanced TXT Messaging (EMS up to 1120 characters)** Enhanced TXT Messages sent to most SMS handsets will be delivered as multiple TXT messages of up to 160 characters each. Subscribers have the option to have text messages disabled entirely without affecting voicemail or other related services. TXT Messaging plans do not include Operator Assisted Messaging. Verizon Wireless is not responsible for information sent using TXT Messaging or Enhanced TXT Messaging. Verizon Wireless cannot guarantee that messages will be received and is not responsible for messages that are lost or misdirected. Messages not delivered after 5 days are automatically deleted. Airtime charges do not apply to the sending or receiving of text messages. When sending messages from a phone, the sender’s telephone number will always be sent to the destination, even if Caller ID is used to block voice calls.

**Get Pix - Multi-Media Messaging (MMS):**

Multi-Media Messaging (MMS) includes Picture and Video messaging. In addition to MMS charges, sending, receiving and uploading MMS,
The Federal Supply Schedule

Federal Supply Schedule
GS-35F-0119P

which is only available within the National Enhanced Services Rate and Coverage Area, uses (i) airtime that will deduct from the calling plan home
airtime allowance or (ii) kilobytes that will deduct from your kilobyte allowance if you subscribe to a NationalAccess Megabyte Plan. Canceling an
MMS after pressing SEND may result in sent messages that contain only partial content. You will be charged for MMS sent from your phone, even
if not received by the intended recipient, or even if only partial content is delivered, but you will not be charged for MMS sent to your phone unless
received. MMS that cannot be delivered within 5 days will be deleted. MMS is not available for use with a Mobile Office Kit. Camera phones are
prohibited in some places. You are solely responsible for complying with all applicable laws, rules, regulations and policies regarding camera
phone use.

Mobile Web by VZW with MSN: Airtime charges apply when using Mobile Web. Mobile Web Alerts are sent as TXT Messages and are subject to
TXT Messaging pricing and terms and conditions. Complete terms and conditions for Mobile Web by VZW with MSN may be found at
verizonwireless.com

GSM International Roaming (Global Phone):

CDMA/GSM Global Phone, activated in the US, with compatible Subscriber Identity Module (SIM) card required. Airtime may be rounded-up
differently from country to country. Availability of calling features and text messaging varies by country and network. Existing Subscribers who
purchase a Global Phone must set up a new voice mailbox and will lose access to previously stored messages upon activation of Global Phone.
Voice mail messages will be time-stamped Eastern Time. Calls to voice mail will appear on the bill as calls to the Subscriber’s mobile telephone
number. Actual availability of service in foreign countries may vary and is subject to change. Taxes and other regulatory surcharges may apply
and may vary by country. International long distance per-minute rates apply in addition to airtime rates on incoming calls and voice mail messages
and, when roaming in GSM mode, on voice mail retrievals. By using global phone outside the United States, Customer is solely responsible for
complying with all applicable foreign laws, rules and regulations (“Foreign Laws”), including Foreign Laws regarding use of wireless phones while
driving and use of wireless camera phones. Verizon Wireless is not liable for any damages that result from Customer’s failure to comply with
Foreign Laws.

Roaming in CDMA countries outside of the US:

Roaming in these territories will only be available in “CDMA” mode where service is available. An update to the Global Phone software is required
to roam in S. Korea. Roaming in GSM countries: Rates, terms and conditions apply only when roaming on participating GSM networks in
published Global Phone countries. Service may be available in additional countries, but airtime rates, availability of calling features, and ability to
receive incoming calls (including return calls from emergency services personnel) may be restricted. See verizonwireless.com for Zone 1 and Zone
2 countries, coverage and airtime rates. Service in certain countries may be blocked without prior notice. Where text messaging is available,
Customer will be charged $0.50 for each message sent and $0.05 for each message received. TXT messages cannot exceed 140 characters and
may be sent only to MTNs of: (i) Verizon Wireless customers, and (ii) customers of foreign wireless carriers that participate in international text
messaging. Check www.vtext.com for the most current list of participating foreign carriers. TXT messages cannot be sent to email addresses.

NationalAccess and BroadbandAccess

NationalAccess data sessions require a NationalAccess capable PC Card, PDA, BlackBerry or handset with its compatible Mobile Office Kit and
must be placed within NationalAccess service area. BroadbandAccess data sessions require BroadbandAccess capable Equipment and must be
placed within BroadbandAccess service areas. For current NationalAccess and BroadbandAccess service areas, please visit
www.verizonwireless.com. A data session is inactive when no data is being transferred, and may seem inactive while data is actively being
transferred to a device, or seem active when actually cached and not transferring data. Subscriber MUST press “END” or “DISCONNECT” to
ensure that session disconnects and charges cease, otherwise data sessions may automatically reinitiate without pressing “SEND” or “Connect”.
Monthly allowances apply only to NationalAccess/BroadbandAccess data transmissions, not to voice or other types of data transmission such as
TXT Messaging and Mobile Web. Voice calls are possible when NationalAccess data session is inactive, however, charges apply simultaneously
for the voice call in accordance with the Calling Plan. Voice calls are not available with BroadbandAccess. Customer must maintain virus protection
when accessing the service and is responsible for all data sent and received including “overhead” (data that is in addition to user-transmitted data,
including control, operational and routing instructions, error-checking characters as well as retransmissions of user-data messages that are
received in error) whether or not such data is actually received. Verizon Wireless will not be liable for problems receiving Service that result from
Customer’s device.

Unlimited NationalAccess/BroadbandAccess Plans: Unlimited NationalAccess/BroadbandAccess plans cannot be used (1) for uploading,
downloading or streaming of movies, music or games, (2) with server devices or with host computer applications other that the BlackBerry
Enterprise Server, including, without limitation, Web camera posts or broadcasts, continuous jpeg file transfers, automatic data feeds, telemetry
applications, automated functions or any other machine-to-machine applications, (3) as substitute or backup for private lines or dedicated data
connections. Unlimited BroadbandAccess and NationalAccess data sessions automatically terminate after 2 hours of inactivity, unless Subscriber
has a Mobile IP (MIP) capable device.

Megabyte (MB) Data Plans: Megabyte NationalAccess data sessions need to be reinitiated after 24 hours. NationalAccess data usage is
rounded to next full kilobyte at end of each billing cycle. Any unused portion of the megabyte allowance is lost. Equipment will not indicate
kilobyte usage.

**NationalAccess (Minutes of Use) Plans:** NationalAccess (Minutes of Use) Plan data sessions automatically terminate after five (5) minutes of inactivity unless Subscriber has a Mobile IP (MIP) capable device. During data session, when traveling outside the NationalAccess area or connection is otherwise unavailable, and continuing with session after returning within five (5) minutes, the entire length of the data session will be billed. 777-000-0001 will be shown in dialed digits column of bill for NationalAccess data sessions.

**BlackBerry Subscribers:** Some BlackBerry features require the use of BlackBerry Desktop Software utilizing desktop redirector and/or the BlackBerry Enterprise Server (BES). Verizon Wireless does not sell the BES. Voice calls cannot be received when an e-mail or other data transmission is occurring. If Equipment is turned off or if the Subscriber travels outside of the NationalAccess service area, e-mail messages will be automatically stored for up to seven days and forwarded when the Subscriber returns to the NationalAccess service area. E-mails received display only the first 2 kilobytes of information. Additional 2 kilobyte increments are delivered at the Subscriber's request. Receiving e-mail attachments and graphics may be limited based on the BlackBerry model or software.

**PDA/Smartphone:** NationalAccess capable PDA/Smartphone required. Not available for NationalAccess capable PC cards or for other wireless modems such as mobile devices tethered to the PC. In order to use the PDA/Smartphone over the air e-mail applications, Subscriber's PC must be powered on and able to receive e-mail.

**NationalAccess Roaming Feature:** Not for use with Mobile Office Kits. Dynamic IP addresses will be assigned when roaming. Usage rounded up to next full kilobyte. For information on where NationalAccess Roaming is available, see www.verizonwireless.com.

**Verizon Wireless Coverage and Rate Area Maps**

**Important Map Information:**

These maps are not a guarantee of coverage, contain areas with no service, and are general predictions of where rates, outdoor coverage including enhanced services apply, largely based on our internal data. The America's Choice map includes networks operated by other carriers and some of the coverage depicted is based on their information and public sources and we cannot ensure its accuracy. Enhanced services and some features are not available throughout the America's Choice home airtime rate and coverage area and may be limited to the National Enhanced Services rate and coverage area. Wireless Service is subject to limitations, particularly near coverage boundaries and remote areas. Equipment, topography and environmental considerations also affect service, which may vary significantly within buildings. All-Digital devices will not operate or be able to make 911 calls when digital service is not available, even when in the America's Choice home airtime rate and coverage area.

Roaming Indicator Information:

Equipment roaming indicator identifies when rates apply and when features and services may be available. Roaming indicators vary by Equipment.

- **When the indicator is off or the banner displays “Verizon Wireless” home airtime rates and National IN Calling minutes apply.** When the digital indicator is also on, digital features and services are available.
- **When the indicator is flashing or the banner displays “Extended Network,” home airtime rates and National IN Calling minutes apply.** When the digital indicator is also ON, digital features and services are available.
- **When the indicator is off or the banner displays “Extended Network,” Home airtime rates and National IN Calling minutes apply; but other features and services may not be available.**
- **When the indicator is solid or the banner displays “Roaming,” roaming rates apply. National IN Calling minutes do not apply and other features and services may not be available.**

*National IN Calling minutes may not apply in certain counties in Iowa, Kentucky, Ohio and West Virginia. IN Calling minutes may not apply in the certain counties in Missouri, Mississippi and Louisiana.

** In Puerto Rico, National IN Calling minutes will apply
Surcharges & Taxes
The following information is provided for purposes of providing an estimate of the taxes, fees and surcharges that may be passed through to the subscriber on the services being provided by Verizon. Any tax, fee or surcharge not listed due to an exemption available for the Federal Government could be added if the Federal Government is not purchasing the services directly. This list is non-binding and subject to change. The rates could change based upon which Verizon legal entity is providing the Service. Taxes, Fees and Surcharges shown below are applicable to Voice and Data Services. No Federal Government Exemption.

### Local Coverage Description

Local Coverage includes one or more Metropolitan Statistical Areas (MSA) The basic level of coverage is local city coverage. This type of coverage usually includes a major city and some surrounding areas. Verizon Wireless Messaging Services offers the most extensive coverage in the industry for local coverage. Local coverage is available for 1-way and most Advanced Messaging (2-way) market networks. For detailed coverage in a specific area, please see Verizon Wireless Messaging Services’ map on Verizon Wireless Messaging Services’ website – [www.verizonmessaging.com](http://www.verizonmessaging.com)

Actual coverage may vary due to terrain, weather, building density, interference, and equipment failures. No wireless coverage is 100% accurate all the time.

*Note: The National airtime rate area includes the Verizon Wireless Messaging Services’ network. Please see Calling Plan Additional Features for included and additional features; Verizon Wireless Calling Plan Terms and Conditions apply.*

### Nationwide Coverage Description

Nationwide coverage includes all 50 states, however this does not refer to blanket coverage. For detailed coverage, please see Verizon Wireless Messaging Services’ map on Verizon Wireless Messaging Services’ website – [www.verizonmessaging.com](http://www.verizonmessaging.com)

Actual coverage may vary due to terrain, weather, building density, interference, and equipment failures. No wireless coverage is 100% accurate all the time.
Verizon Wireless Messaging Services’ Additional Features

Additional Features can put your pager to work for you. With all the pager features Verizon Wireless Messaging Services’ offers, you can use your pager to do a lot more than send and receive messages. All of our paging plans-national, regional or local – offer you the value and convenience of these services for minimal additional monthly access charges. These features may depend upon pager compatibility and service and may not be available in all areas.

SECONDARY NUMBERS

Secondary Numbers offer customers up to 3 additional pager phone numbers per paging unit. Coverage on Secondary numbers will mirror the Primary numbers’ coverage.

Toll Free Secondary numbers allow the caller to page a Verizon Wireless Messaging Services customer without incurring long distance fees. Customers can have a blocked or unblocked Toll Free number. Blocked- callers may not dial the pager number from a payphone. Unblocked- Callers are able to dial the number from a pay phone, however, the Customer will be subject to a fee each time the number is dialed from a pay phone. Note: Toll free numbers will always be issued as Secondary Pager Numbers, except in an Exception Area where no local numbers are available.

## PAGESAVER\textsuperscript{SM} NUMERIC RETRIEVAL

PageSaver\textsuperscript{SM} makes sure you don’t miss pages even if you leave your pager at home, leave the coverage area or if the battery runs down. With PageSaver\textsuperscript{SM}, you just call your pager number, and retrieve the most recent 15 pages you’ve received - it even tells you the time and date the page was sent.

<table>

Verizon Wireless Messaging Services’ Terms and Conditions

All activation fees are waived for Government Subscribers/Customer. Government Subscribers/Customer are end users of accounts that are set up in Ordering Activity’s name and for which Ordering Activity bears payment responsibility.

Messaging and paging services use radio transmissions, so Carrier cannot provide service when customer’s wireless equipment is not in range of one of our transmission sites, or a transmission site of another company that has agreed to carry Carrier’s service, or if there is not sufficient network capacity available at the moment. Also, there are places, particularly in remote areas, with no service at all. Weather, topography, buildings, Customer’s wireless equipment, and other conditions Carrier does not control may also cause missed messages or other problems.

Carrier will assign one wireless telephone number (also referred to as an “access number”, “pager number”, or “wireless number”), cap code and/or Internet address, if applicable, to each unit in service. Customer agrees that it does not have any property right or ownership in the wireless number, cap code or Internet address or in the personal identification number (“PIN(s)”) the Customer or Carrier may establish. Carrier may change the Customer’s wireless number if Carrier determines it is necessary to comply with regulatory and/or commercial requirements, however, Carrier shall not arbitrarily change Customer’s wireless number and in the event of change Carrier shall specifically advise Customer of the reason for such change.

Equipment remains the property of Carrier. Customer bears the risk of loss of wireless equipment once received. Customer shall return the defective equipment to Carrier for a replacement of similar type. If service is terminated, Customer will return all wireless equipment provided under this Agreement or reimburse Carrier the amount of $12 for every one way numeric-only device, $28 for every alpha-numeric device, and $64 for every two-way device not returned in reasonably good condition. Charges will continue to accrue until all wireless equipment is returned. Government Subscribers/Customers who purchase services under this Federal Supply Schedule are not eligible for promotions.

Toll, Federal Universal Service and Regulatory fee resulting from our costs of government assessments and additional fees/surcharges are not included in the above rates. Verizon Wireless Messaging Services’ coverage areas, rates, business practices, procedures, policies are subject to change, as specified in the agreement. These discounts are only available to the Government through the Federal Supply Schedule ordering process or Verizon Wireless Messaging Services sales representatives, but are not available through indirect agents.
Information for Ordering Activities:

3. LIABILITY FOR INJURY OR DAMAGE

The Contractor shall not be liable for any injury to ordering activity personnel or damage to ordering activity property arising from the use of equipment maintained by the Contractor, unless such injury or damage is due to the fault or negligence of the Contractor.

4. Statistical Data for Government Ordering Office Completion of Standard Form 279:

Block 9: G. Order/Modification Under Federal Schedule
Block 16: Data Universal Numbering System (DUNS) Number: 968904698
Block 30: Type of Contractor - __C. Large Business__
Block 31: Woman-Owned Small Business - _No__________
Block 36: Contractor's Taxpayer Identification Number (TIN): __223372889____________________

4a. CAGE Code: _1HWU7____________
4b. Contractor has registered with the Central Contractor Registration Database.

5. FOB Destination

6. DELIVERY SCHEDULE

a. TIME OF DELIVERY: The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

<table>
<thead>
<tr>
<th>SPECIAL ITEM NUMBER</th>
<th>DELIVERY TIME (Days ARO)</th>
</tr>
</thead>
<tbody>
<tr>
<td>132-53</td>
<td><em>5</em> Days</td>
</tr>
</tbody>
</table>

b. URGENT REQUIREMENTS: When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering activity, ordering activities are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering activity, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

7. Discounts: Prices shown are NET Prices; Basic Discounts have been deducted.

   a. Prompt Payment: NONE__ % - ___ days from receipt of invoice or date of acceptance, whichever is later.
   b. Quantity NONE
   c. Dollar Volume NONE
   d. Government Educational Institutions NONE
   e. Other NONE

8. Trade Agreements Act of 1979, as amended:

This Contract is for commercial wireless service. To the extent that Verizon Wireless provides products on the open market, such products are manufactured by third parties and may contain elements or components produced in foreign countries.
9. Statement Concerning Availability of Export Packing: N/A
10. Small Requirements: The minimum dollar value of orders to be issued is $7.99 for voice $2.23 for paging____.
11. Maximum Order (All dollar amounts are exclusive of any discount for prompt payment.)
   a. The Maximum Order value for the following Special Item Numbers (SINs) is $500,000:

   Special Item Number 132-53 – Wireless Services

   Note: Maximum Orders do not apply to Special Item Numbers 132-12 Maintenance and Repair Service (except for Repair Parts/Spare Parts) or 132-34 Maintenance of Software.

12. USE OF FEDERAL SUPPLY SERVICE INFORMATION TECHNOLOGY SCHEDULE CONTRACTS. In accordance with FAR 8.404:

   [NOTE: Special ordering procedures have been established for Special Item Numbers (SINs) 132-51 IT Professional Services and 132-52 EC Services; refer to the terms and conditions for those SINs.]

Orders placed pursuant to a Multiple Award Schedule (MAS), using the procedures in FAR 8.404, are considered to be issued pursuant to full and open competition. Therefore, when placing orders under Federal Supply Schedules, ordering activities need not seek further competition, synopsize the requirement, make a separate determination of fair and reasonable pricing, or consider small business set-asides in accordance with subpart 19.5. GSA has already determined the prices of items under schedule contracts to be fair and reasonable. By placing an order against a schedule using the procedures outlined below, the ordering activity has concluded that the order represents the best value and results in the lowest overall cost alternative (considering price, special features, administrative costs, etc.) to meet the ordering activity’s needs.

   a. Orders placed at or below the micro-purchase threshold. Ordering activities can place orders at or below the micro-purchase threshold with any Federal Supply Schedule Contractor.

   b. Orders exceeding the micro-purchase threshold but not exceeding the maximum order threshold. Orders should be placed with the Schedule Contractor that can provide the supply or service that represents the best value. Before placing an order, ordering activities should consider reasonably available information about the supply or service offered under MAS contracts by using the “GSA Advantage!” on-line shopping service, or by reviewing the catalogs/pricelists of at least three Schedule Contractors and selecting the delivery and other options available under the schedule that meets the ordering activity’s needs. In selecting the supply or service representing the best value, the ordering activity may consider--

      (1) Special features of the supply or service that are required in effective program performance and that are not provided by a comparable supply or service;

      (2) Trade-in considerations;

      (3) Probable life of the item selected as compared with that of a comparable item;

      (4) Warranty considerations;

      (5) Maintenance availability;

      (6) Past performance; and

      (7) Environmental and energy efficiency considerations.

   c. Orders exceeding the maximum order threshold. Each schedule contract has an established maximum order threshold. This threshold represents the point where it is advantageous for the ordering activity to seek a price reduction. In addition to following the procedures in paragraph b, above, and before placing an order that exceeds the maximum order threshold, ordering activities shall-- Review additional Schedule Contractors' catalogs/pricelists or use the “GSA Advantage!” on-line shopping service;

      (2) Based upon the initial evaluation, generally seek price reductions from the Schedule Contractor(s) appearing to provide the best value (considering price and other factors); and

      (3) After price reductions have been sought, place the order with the Schedule Contractor that provides the best value and results in the lowest overall cost alternative. If further price reductions are
not offered, an order may still be placed, if the ordering activity determines that it is appropriate.

NOTE: For orders exceeding the maximum order threshold, the Contractor may:

1. Offer a new lower price for this requirement (the Price Reductions clause is not applicable to orders placed over the maximum order in FAR 52.216-19 Order Limitations);

2. Offer the lowest price available under the contract; or

3. Decline the order (orders must be returned in accordance with FAR 52.216-19).

d. Blanket purchase agreements (BPAs). The establishment of Federal Supply Schedule BPAs is permitted when following the ordering procedures in FAR 8.404. All schedule contracts contain BPA provisions. Ordering activities may use BPAs to establish accounts with Contractors to fill recurring requirements. BPAs should address the frequency of ordering and invoicing, discounts, and delivery locations and times.

e. Price reductions. In addition to the circumstances outlined in paragraph c, above, there may be instances when ordering activities will find it advantageous to request a price reduction. For example, when the ordering activity finds a schedule supply or service elsewhere at a lower price or when a BPA is being established to fill recurring requirements, requesting a price reduction could be advantageous. The potential volume of orders under these agreements, regardless of the size of the individual order, may offer the ordering activity the opportunity to secure greater discounts. Schedule Contractors are not required to pass on to all schedule users a price reduction extended only to an individual ordering activity for a specific order.

f. Small business. For orders exceeding the micro-purchase threshold, ordering activities should give preference to the items of small business concerns when two or more items at the same delivered price will satisfy the requirement.

g. Documentation. Orders should be documented, at a minimum, by identifying the Contractor the item was purchased from, the item purchased, and the amount paid. If an ordering activity requirement, in excess of the micro-purchase threshold, is defined so as to require a particular brand name, product, or feature of a product peculiar to one manufacturer, thereby precluding consideration of a product manufactured by another company, the ordering activity shall include an explanation in the file as to why the particular brand name, product, or feature is essential to satisfy the ordering activity’s needs.

13. FEDERAL INFORMATION TECHNOLOGY/TELECOMMUNICATION STANDARDS REQUIREMENTS: ordering activities acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDS), which are cited by ordering activities, shall be responded to promptly by the Contractor.

13.1 FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATIONS (FIPS PUBS): Information Technology products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable "FIPS Publication." Federal Information Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use. Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.

13.2 FEDERAL TELECOMMUNICATION STANDARDS (FED-STDS): Telecommunication products under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDS) should not be acquired unless a waiver has been granted in accordance with the applicable "FED-STD." Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-STDS should be obtained from the GSA, Federal Supply Service, Specification Section, 470 East L’Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number (202)619-8925. Please include a self-addressed mailing label when
requesting information by mail. Information concerning their applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301)975-2833.

14. SECURITY REQUIREMENTS. In the event security requirements are necessary, the ordering activities may ingovernment, in their delivery orders, a security clause in accordance with current laws, regulations, and individual ordering activity policy; however, the burden of administering the security requirements shall be with the ordering activity. If any costs are incurred as a result of the inclusion of security requirements, such costs will not exceed ten percent (10%) or $100,000, of the total dollar value of the order, whichever is less.

15. CONTRACT ADMINISTRATION FOR ORDERING ACTIVITIES: Any ordering activity, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the ordering activity’s convenience, and (m) Termination for Cause (See C.1.)

16. GSA Advantage!
GSA Advantage! is an on-line, interactive electronic information and ordering system that provides on-line access to vendors’ schedule prices with ordering information. GSA Advantage! will allow the user to perform various searches across all contracts including, but not limited to:

(1) Manufacturer;
(2) Manufacturer’s Part Number; and
(3) Product categories.

Agencies can browse GSA Advantage! by accessing the Internet World Wide Web utilizing a browser (ex.: NetScape). The Internet address is http://www.fss.gsa.gov/.

17. PURCHASE OF OPEN MARKET ITEMS
NOTE: Open Market Items are also known as incidental items, noncontract items, non-Schedule items, and items not on a Federal Supply Schedule contract.
For administrative convenience, an ordering activity contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS) -- referred to as open market items -- to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, only if:

(1) All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));
(2) The ordering activity contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;
(3) The items are clearly labeled on the order as items not on the Federal Supply Schedule; and
(4) All clauses applicable to items not on the Federal Supply Schedule are included in the order.

18. CONTRACTOR COMMITMENTS, WARRANTIES AND REPRESENTATIONS
a. For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:

(1) Time of delivery/installation quotations for individual orders;
(2) Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/service/software package submitted in response to requirements which result in orders under this schedule contract.
(3) Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.
b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.

19. OVERSEAS ACTIVITIES
The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below:

Not Applicable

Upon request of the Contractor, the ordering activity may provide the Contractor with logistics support, as available, in accordance with all applicable ordering activity regulations. Such ordering activity support will be provided on a reimbursable basis, and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

20. BLANKET PURCHASE AGREEMENTS (BPAs)
Federal Acquisition Regulation (FAR) 13.303-1(a) defines Blanket Purchase Agreements (BPAs) as “…a simplified method of filling anticipated repetitive needs for supplies or services by establishing ‘charge accounts’ with qualified sources of supply.” The use of Blanket Purchase Agreements under the Federal Supply Schedule Program is authorized in accordance with FAR 13.303-2(c)(3), which reads, in part, as follows:

“BPAs may be established with Federal Supply Schedule Contractors, if not inconsistent with the terms of the applicable schedule contract.”

Federal Supply Schedule contracts contain BPA provisions to enable schedule users to maximize their administrative and purchasing savings. This feature permits schedule users to set up “accounts” with Schedule Contractors to fill recurring requirements. These accounts establish a period for the BPA and generally address issues such as the frequency of ordering and invoicing, authorized callers, discounts, delivery locations and times. Agencies may qualify for the best quantity/volume discounts available under the contract, based on the potential volume of business that may be generated through such an agreement, regardless of the size of the individual orders. In addition, agencies may be able to secure a discount higher than that available in the contract based on the aggregate volume of business possible under a BPA. Finally, Contractors may be open to a progressive type of discounting where the discount would increase once the sales accumulated under the BPA reach certain prescribed levels. Use of a BPA may be particularly useful with the new Maximum Order feature. See the Suggested Format, contained in this Schedule Pricelist, for customers to consider when using this purchasing tool.

21. CONTRACTOR TEAM ARRANGEMENTS
Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Contractor’s Reports of Sales and 552.238-76, Industrial Funding Fee, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

22. INSTALLATION, DEINSTALLATION, REINSTALLATION
The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of $2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall received less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds $2,000, then the requirements of the Davis-Bacon
Act applies.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8.

23. **SECTION 508 COMPLIANCE.**

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following:

http://www.verizonwireless.com/b2c/aboutUs/accessibility/index.jsp

Verizon Wireless will work with ordering agencies to assist in identifying their specific Section 508 requirements.

The EIT standard can be found at: www.Section508.gov.

Verizon Wireless is committed to providing wireless products and services that are accessible to all people, including individuals with disabilities. Our equipment that facilitates electronic office equipment accessibility for handicapped individuals is identified in our commercial literature and on our website at

http://www.verizonwireless.com/b2c/aboutUs/accessibility/index.jsp

Verizon Wireless does not manufacture these products. We continue to work with our vendors and suppliers to encourage them to develop and offer solutions that will enable Verizon Wireless’ products and services to be more accessible to all. Verizon Wireless will work with ordering agencies to assist in identifying their specific 508 requirements.

24. **PRIME CONTRACTOR ORDERING FROM FEDERAL SUPPLY SCHEDULES.**

Prime Contractors (on cost reimbursement contracts) placing orders under Federal Supply Schedules, on behalf of an ordering activity, shall follow the terms of the applicable schedule and authorization and include with each order –

(a) A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and

(b) The following statement:

This order is placed under written authorization from _______ dated _______. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.
TERMS AND CONDITIONS APPLICABLE TO WIRELESS SERVICES
(SPECIAL ITEM NUMBER 132-53)

1. ACCEPTANCE TESTING
The CRS Verizon Wireless provides is consistent with the highest quality of commercial practices in the industry. Verizon Wireless’s inspection system is not subject to approval by the government.

2. EQUIPMENT
The Contractor shall make available cellular voice and data devices. The cellular devices offered shall be compatible with the cellular access standards employed within the geographical scope of contract.
The Contractor shall provide programming of any cellular telephone device, including Contractor-provided and ordering activity-furnished devices, that conforms to the cellular service furnished by the Contractor.

3. WARRANTY
The Contractor shall provide a warranty covering each Contractor-provided device. The minimum duration of the warranty shall be the duration of the manufacturer’s commercial warranty for the item listed below:
Verizon Wireless does not manufacture equipment and will provide the manufacturers consumer warranty. Please contact customer service to first try to troubleshoot the problem. If it is determined that the problem is in the hardware, a warranty repair must take place. All manufacturers’ warranty information is shipped with each phone at the time of purchase. The warranty shall commence upon the later of the following:
   a. Activation of the user’s service
   b. Installation/delivery of the equipment
If the Contractor renders warranty service by replacement, the user shall return the defective item(s) to the Contractor as soon as possible but not later than ten (10) working days after notification.

4. MANAGEMENT AND OPERATIONS PRICING
The Offeror shall provide management and operations pricing on a uniform basis. All management and operations requirements for which pricing elements are not specified shall be provided as part of the basis service.

5. TRAINING
The Contractor shall provide normal commercial installation, operation, maintenance, and engineering interface training on the system. If there is a separate charge, indicate below:
Verizon Wireless will provide training assistance at no charge. Please call 1-800-561-6227

6. MONTHLY REPORTS
In accordance with commercial practices, the Contractor may furnish the ordering activity/User with a monthly summary ordering activity report.
Verizon Wireless will provide upon request by Ordering Activity.
7. WIRELESS SERVICE PLAN

(a) Describe the wireless service plan and eligibility requirements. Include, but not limited to, service area, monthly service charge, minutes included, etc.

See Pricing section

(b) Describe charges, if any, for additional minutes, domestic wireless long distance, roaming, nights and weekends, etc.

See Pricing section

(c) Describe government volume discounts and eligibility requirements.

See price section

USA COMMITMENT TO PROMOTE SMALL BUSINESS PARTICIPATION PROCUREMENT PROGRAMS

BEST VALUE
BLANKET PURCHASE AGREEMENT
FEDERAL SUPPLY SCHEDULE

(Insert Customer Name)

In the spirit of the Federal Acquisition Streamlining Act (ordering activity) and (Contractor) enter into a cooperative agreement to further reduce the administrative costs of acquiring commercial items from the General Services Administration (GSA) Federal Supply Schedule Contract(s) ____________________.

Federal Supply Schedule contract BPAs eliminate contracting and open market costs such as: search for sources; the development of technical documents, solicitations and the evaluation of offers. Teaming Arrangements are permitted with Federal Supply Schedule Contractors in accordance with Federal Acquisition Regulation (FAR) 9.6.

This BPA will further decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the ordering activity that works better and costs less.

BPA NUMBER________________

(CUSTOMER NAME)

BLANKET PURCHASE AGREEMENT

Pursuant to GSA Federal Supply Schedule Contract Number(s)____________, Blanket Purchase Agreements, the Contractor agrees to the following terms of a Blanket Purchase Agreement (BPA) EXCLUSIVELY WITH (ordering activity):

(1) The following contract items can be ordered under this BPA. All orders placed against this BPA are subject to the terms and conditions of the contract, except as noted below:

<table>
<thead>
<tr>
<th>MODEL NUMBER/PART NUMBER</th>
<th>*SPECIAL BPA DISCOUNT/PRICE</th>
</tr>
</thead>
<tbody>
<tr>
<td>________________________</td>
<td>___________________________</td>
</tr>
<tr>
<td>________________________</td>
<td>___________________________</td>
</tr>
</tbody>
</table>

(2) Delivery:

<table>
<thead>
<tr>
<th>DESTINATION</th>
<th>DELIVERY SCHEDULES / DATES</th>
</tr>
</thead>
<tbody>
<tr>
<td>________________________</td>
<td>___________________________</td>
</tr>
<tr>
<td>________________________</td>
<td>___________________________</td>
</tr>
</tbody>
</table>

(3) The ordering activity estimates, but does not guarantee, that the volume of purchases through this agreement will be ________________________.

(4) This BPA does not obligate any funds.

(5) This BPA expires on ______________ or at the end of the contract period, whichever is earlier.

(6) The following office(s) is hereby authorized to place orders under this BPA:

<table>
<thead>
<tr>
<th>OFFICE</th>
<th>POINT OF CONTACT</th>
</tr>
</thead>
<tbody>
<tr>
<td>________________________</td>
<td>___________________________</td>
</tr>
<tr>
<td>________________________</td>
<td>___________________________</td>
</tr>
</tbody>
</table>

(7) Orders will be placed against this BPA via Electronic Data Interchange (EDI), FAX, or paper.

(8) Unless otherwise agreed to, all deliveries under this BPA must be accompanied by delivery tickets or sales slips that must contain the following information as a minimum:

(a) Name of Contractor;
(b) Contract Number;
(c) BPA Number;
(d) Model Number or National Stock Number (NSN);
(e) Purchase Order Number;
(f) Date of Purchase;
(g) Quantity, Unit Price, and Extension of Each Item (unit prices and extensions need not be shown when incompatible with the use of automated systems; provided, that the invoice is itemized to show the information); and
(h) Date of Shipment.

(9) The requirements of a proper invoice are specified in the Federal Supply Schedule contract. Invoices will be submitted to the address specified within the purchase order transmission issued against this BPA.
(10) The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of this BPA and the Contractor’s invoice, the provisions of this BPA will take precedence.

BASIC GUIDELINES FOR USING "CONTRACTOR TEAM ARRANGEMENTS"

Federal Supply Schedule Contractors may use “Contractor Team Arrangements” (see FAR 9.6) to provide solutions when responding to a ordering activity requirements.

These Team Arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts.

Orders under a Team Arrangement are subject to terms and conditions or the Federal Supply Schedule Contract.

Participation in a Team Arrangement is limited to Federal Supply Schedule Contractors.

Customers should refer to FAR 9.6 for specific details on Team Arrangements.

Here is a general outline on how it works:

- The customer identifies their requirements.
- Federal Supply Schedule Contractors may individually meet the customers needs, or -
- Federal Supply Schedule Contractors may individually submit a Schedules “Team Solution” to meet the customer’s requirement.
- Customers make a best value selection.
Thank you for choosing Verizon Wireless!
