

## SOFTWARE UPDATE

# WINDOWS PHONE 8X

SOFTWARE VERSION Build Number: 3030.0.34201.605; Baseband: 0.17.50.0603

Verizon Wireless is pleased to announce a software update designed to improve the performance of your Windows Phone 8X smartphone.

Windows Phone 8X

### KEY DEVICE ENHANCEMENTS ENABLE YOU TO:

- Make assisted calls more easily while roaming in select international destinations
- Select, download and pin music with the Xbox Music Experience
- Access song and album information more accurately with the Xbox Music Experience
- Enjoy better web browsing with improved HTML 5 compatibility in Internet Explorer
- Connect with greater stability when using Voice over Internet Protocol (VoIP) apps like Lync and Skype

### NEWLY SUPPORTED CAPABILITIES INCLUDE:

- FM Radio
  - The latest software allows you to select, listen to and save your favorite radio stations (requires headset as antenna)
- Group Text
  - Note: This feature is off by default, but users can configure via the Messaging application by selecting Settings, Group Text, and changing the toggle to On
- IMAP for email, CardDAV for contacts and CalDAV for calendar when setting up a Gmail account
