

SOFTWARE UPDATE

GET THE MOST OUT OF YOUR DROID XYBOARD 10.1 BY MOTOROLA.

Verizon Wireless is pleased to announce a new software update, 11.11.27.MZ617.Verizon.en.US, for your DROID XYBOARD by Motorola. The update includes an upgrade to the Android operating system 4.0.4 (Ice Cream Sandwich).

Verizon Wireless and Motorola encourage you to download this upgrade.

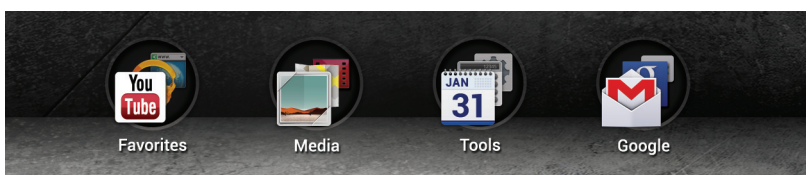

DIRECT ACCESS LOCK SCREEN

The direct access lock screen takes you directly to Camera, Browser, Gallery or Unlock.

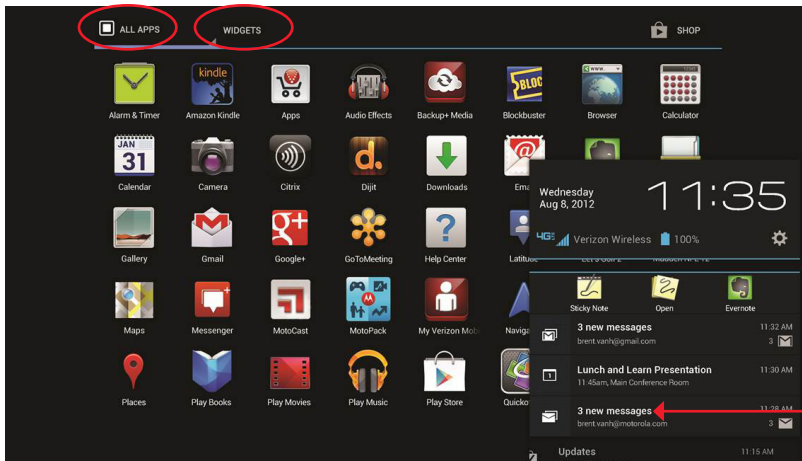

CREATE FOLDERS

Easily create folders by dropping one app on top of another. You can also add a name to specify the folder contents.

ALL APPS SCREEN

Add Widgets and Apps to your homescreen panels via the All Apps Screen and the Widget Screen.

NOTIFICATION BAR

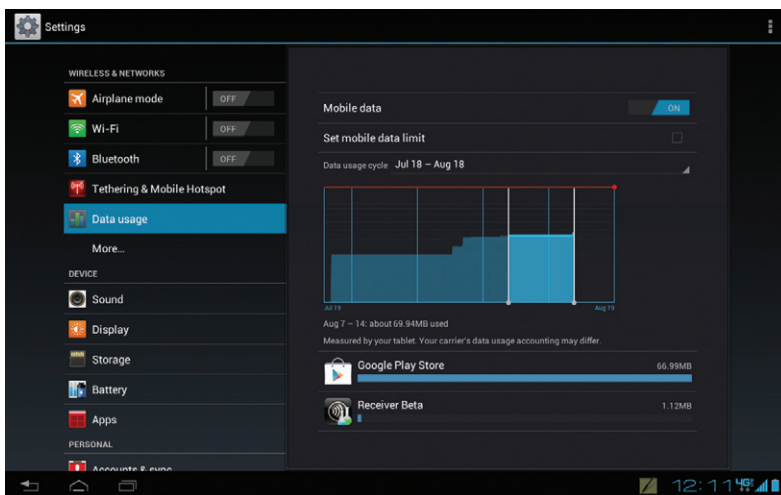

Enhanced notifications window includes access to settings menu, and the new swipe feature to dismiss individual notifications.

DATA USAGE

Monitor your data usage all in one place. Set warning levels, check individual app usage or turn off data completely.

Important Note: The on-device Data Usage meter may not match the amount of data for which the customer will be charged by Verizon Wireless because the on-device meter may include data usage that is not billed to the customer.

The My Verizon Mobile app reflects billable data usage and best indicator of how much of the current month's data allowance has been used.

Also, with this upgrade, your device will now run on Android 4.0.4 (Ice Cream Sandwich).

Here are some of the key updates with this operating system:

- + Includes the latest Motorola USB driver to allow Xyboard to connect to a computer to transfer files.
- + Securely refresh your Corporate Email account with the native email client.
- + Faster Browsing Experience
- + Improved network connectivity
