

Set Up App Store

- How to Get Apps From the App Store Without a Credit Card
 - First, go to the App Store on your iPad and find a free app that you want
 - Tap on “Free” and then tap “Install App”
 - You should get a popup, tap “Create New Account”

- Next, enter your email, password, a question and answer and date of birth. After the information is entered tap next
- Now you will get another screen asking for a credit card, Visa is the default, tap on Visa and scroll down to none. After selecting none, fill in the rest of the required information and tap next

- Next, you will need to select your country and agree to the terms of service.

- You are almost done, Apple will send a email to the email address you provided, all you need to do is verify the email address.
- Once it's been verified, you can go to the App Store and get all the free apps you want. You will be asked to sign in to get your first app. This account will also be able to get free music, videos, iBooks, podcast, etc.
