Preparing Your GizmoGadget

This quick reference guide will walk you through the following steps to set up your GizmoGadget:

• Charging
• Turning on
• Activating
• Downloading the app
• Setting up the app
About Your GizmoGadget

- Wristband (Holder)
- Speaker
- Touchscreen
- USB/Charger Port
- GizmoGadget
- Call Button
- End/Back Button
- Microphone

Thu, Nov 12
01:00 PM
Charging Your GizmoGadget

To charge the battery, open the USB/charger port cover and:

1. Plug the charging cord to the GizmoGadget.
2. Plug the other end of the cord into the charging adapter.
3. Plug the charging adapter into an electrical outlet. The screen will show the battery charging icon and will let you know when your GizmoGadget is fully charged.

NOTE:
• Don’t use the GizmoGadget while it’s being charged.
• Only use the charging cord and adapter included in the box to charge your GizmoGadget.
• Make sure that you snap closed the USB/charger port cover completely to keep out dirt and water.
Turning Your GizmoGadget On and Off

Turning your GizmoGadget on:

• Press and hold the End/Back button on your GizmoGadget until the screen lights up.

Turning your GizmoGadget off:

• Press and hold the End/Back button on your GizmoGadget until you see “Do you want me to turn off?” on your GizmoGadget screen.

• Tap to turn off your GizmoGadget.

• You can also use the GizmoHub app to turn off your GizmoGadget from your smartphone.
Activating Your GizmoGadget

1. Your GizmoGadget should start activating automatically the first time you turn it on.
2. Your GizmoGadget screen should show: “Activating...”
3. Then, your GizmoGadget will turn off and on by itself.
4. When activation is complete, your GizmoGadget screen will show: “I’m activated.”
Registering as a Caregiver

**Step 1:** Using your smartphone, download the GizmoHub app from the Google Play Store or the Apple App Store.

![Google Play Store QR Code](image)

![Apple App Store QR Code](image)

**NOTE:**
- The app is available for Android™ 5.0 or higher and iOS 9.0 or higher in the Google Play Store or the Apple App Store.
- Data usage applies for app download and use.
Step 2: Open the app on your smartphone.

NOTE: Descriptions and screen images in this user guide may differ due to GizmoHub app updates.
Step 3: Follow the instructions in the app and on your GizmoGadget to:

- Register as the primary caregiver
- Add additional contacts

You will be asked for your GizmoGadget’s mobile number. You can find the mobile number on your customer receipt or on the screen of your GizmoGadget after it has been activated successfully.
Wearing Your GizmoGadget

- Your GizmoGadget comes pre-inserted in a wristband.
- Your GizmoGadget needs to stay in the wristband to work. It will let you know if it comes out of its holder.

NOTE: Additional wristbands sold separately.
Using Your GizmoGadget

Show your child what your GizmoGadget can do and practice making and receiving calls with it.

Making a Call

1. Press the Call button \( \text{Call} \) once to open the contact list.
2. Tap the Phone icon \( \text{Phone} \) next to the contact you want to call.

Answering a Call

1. Your GizmoGadget will ring and the caller name will be shown on the screen.
2. Press the Call button \( \text{Call} \) to answer the call.

Ending a Call

Press the End/Back button \( \text{End/Back} \) on your GizmoGadget to end the call.

NOTE: Making and receiving calls requires a wireless network connection.
Sending a Message

Your GizmoGadget can send emoticons 😊, voice recordings ☁️, or quick messages 📭 to the GizmoHub app on your smartphone.

1. From the watch screen, swipe left.
2. Tap Messaging 📩.
3. Tap 📸 to create a new message.
4. Select a contact.
5. Tap an icon to select the type of message.

Receiving a Message

Your GizmoGadget can also receive messages from the GizmoHub app.

The message will show on the Home screen when it is received. To reply, just tap on the message.

**NOTE:** Your GizmoGadget can only receive messages from the GizmoHub app. It can't receive regular text messages.
Sending a Check-in Message

Your GizmoGadget can send a check-in message with its location to the primary caregiver.

1. From the watch screen, swipe up.
2. Pressichever.

Playing Fun Sounds

Your GizmoGadget can play fun sounds.

Swipe to the right from the watch screen to get to the fun sounds screen. Tap on the character to play fun sounds.

Recording Your Voice and Using the Voice Changer

Your GizmoGadget can record your voice and play it back in fun voices like a robot voice. Swipe to the left twice from the watch screen and then tap Voice Changer. Use the onscreen controls to record your voice. Tap the left and right arrows to see different characters and hear yourself using their voices.
Checking the Battery Level, Signal Strength and Sound

From any screen, swipe down from the top of the screen to view the battery and signal levels, and turn sound on and off.

You can also check the battery from the GizmoHub app. Go to Settings > Battery life.
Using the GizmoHub App on Your Smartphone

The first phone you register with the app will automatically become the primary caregiver. The primary caregiver can use the app to:

- View the location of your GizmoGadget on a map and use your smartphone to navigate to the location.
- Set up other location features like scheduled location checks, place alerts and more.
- Change settings like ringtones, volume level and fun sounds.
- Turn off your GizmoGadget.
- Add up to 9 additional contacts and decide if they will be caregivers.
  - Contacts can call your GizmoGadget and receive calls from it.
  - Caregivers can also use the app to send messages to your GizmoGadget, receive quick messages from it, and locate your GizmoGadget using the GizmoHub app.
Locating Your GizmoGadget

To check your GizmoGadget’s location, tap the Find icon on the app’s Home screen. Your GizmoGadget’s location, with address, will be shown as a position on a map.

Maps shown are for reference only and are subject to change.

NOTE:
• Your GizmoGadget needs to be turned on and have a wireless network connection in order to be located.
• Locating the GizmoGadget can take up to 3 minutes.
• Sometimes being inside a building or in an area with poor signal strength can affect the accuracy of the location and how current it is.
• GPS location is approximate and results are not guaranteed.
Support & More

Get Help from the GizmoHub App

From the app Home screen, tap Menu → Help.
