

Software Update SAMSUNG GALAXY NOTE® 10.1.

Verizon Wireless is pleased to announce a software update (version JZ054K.I925VRAME2) designed to improve the performance of your Samsung Galaxy Note® 10.1.

The following software changes have been made:

- Gmail contacts will now be synced and displayed in the device contact list
- The word 'Skip' has been changed to 'Next' in the Setup Wizard
- Global Network popup includes check box and action message 'Don't Show Again'
- Customers using a 2003 email server will now be able to download email attachments
- The words 'Remove All' have been changed to 'Close All' on the Task Manager screen
- Add a period by double tapping the spacebar when using the Samsung Keyboard
- The default setting has been changed to Justified on the S Note application

The following improvements have been made:

- Amazon Kindle Stub application has improved connectivity and reduced resets
- Improvements have been made to email connectivity and viewing
- Exchange email folders can now be displayed in alphabetical order

Samsung Galaxy Note® 10.1
